MAYBE WE CAN HELP!

WWW.BALTIMORECITY.GOV

The cost of providing water to almost two million people each day is directly tied to the cost of fuel, electricity, and federal safe drinking-water guidelines.

As water costs rise, citizens with limited incomes are finding it harder to make ends meet. That is why Baltimore City offers assistance to income-eligible residents.

Please contact your nearest Baltimore Community Action Center for more information on how we may be able to help you.

You must meet the household income guidelines below:*
