Water Contract 1274 – Carrollton Avenue and Vicinity Water Main Replacements

March 28, 2024

To Whom it May Concern,
Below is the project construction status update.

Project Description:

DPW WC1274 Carrollton Avenue and Vicinity Water Main project consisted of approximately 2.6 miles of aged cast iron pipe replacement with new ductile iron pipe replacement, and replacement of various size valves, roadway boxes, fire hydrants, and renewal of water service connections.

Work in Progress:

- Roadway line striping was recently finished and all contract work has been substantially completed.
- The work will be conditionally accepted in the coming month and the 12-month warranty period will follow.
- Thank you to all residents impacted by the project for your patience and understanding while we completed this important work and provided significant improvements to the water distribution system in the area.

During construction, the Contractor may require a lane or total road closure. The Contractor will submit an MOT plan for DOT review and approval. Detour signs will be installed once the MOT is approved prior to starting the work.

Americans with Disabilities Act (ADA) Notice

If an ADA Accommodation is needed during the construction, please contact:

Valorie LaCour, DOT ADA Compliance Division, ADA Coordinator
