

# GROWCenter

## Fall 2022 Schedule of Events

It's Fall, which means that it is DPW GROW Center time! Attend one of our many activities and get some great resources to help you with your greening projects. Free trees, mulch, and reusable shopping bags will be available, as well as information on stormwater fee credits, recycling, composting, gardening, adopt a lot, and other ways to make your home and community greener, cleaner, and more resilient.

Free shredding will be available at the October 1st and November 6th events.

Workshops are FREE but require registration. Compost workshop attendees will receive a free compost bin. To register for a workshop visit <https://publicworks.baltimorecity.gov/grow-center>

---
