

Sanitary Contract 941 (Sewer Collection System Improvements in the Jones Falls Sewershed)

March 1, 2021

To whom it may concern,

Below is the construction status of project SC941.

Project Limits

The SC941 work area is within the Jones Falls Sewershed and includes work along the Jones Falls River and Falls Road. In addition, SC-941 involves upsizing of the pressure sewer in the area between Broadway and Chase St. The work area is largely east of Interstate 83 and west of Route 1. This project will help eliminate two (2) of the City's Sanitary Sewer Overflows (SSO) - SSO 67 and SSO 72. Besides the ongoing impact at Falls Road, the other neighborhoods are impacted by Cured In Place (CIPP) lining, Manhole Rehabilitation, etc. These neighborhoods are in Districts 11, 12 and 14. Approximately completion of project to date is 67%.

Effective February 22, 2021, Ellsworth Street will be closed between N. Broadway and Gay St to all but construction vehicles. The approximate duration of the closure is 3-4 months. Trash pickup for the 1300 block of N. Broadway will occur from the front of the buildings, rather than the rear.

Work in Progress

- **Falls Road Closure**
 - Closed as of 5/11/20
 - The Jones Falls Trail will still be open and accessible to the public
- **Pre- CCTV for Cured In Placed Pipe (CIPP) Lining**
 - Heavy machinery will be used (construction noise is expected)
 - Lane closures /lane adjustments are expected
- **CIPP Lining, Sewer Rehabilitation**
 - Heavy machinery will be used (construction noise is expected)
 - Lane closures /lane adjustments are expected
 - During curing process odor may be emitted
 - Completed Locations:
 - 02/03/2021: 410 E 26th St.; 301 E 29th St.
 - 02/04/2021: 2323 Greenmount Ave.; 301 E 29th St
 - 02/05/2021: 2435 Greenmount Ave
 - 02/08/2021: 311 21st 1/2 St; 30 E 25th Street
 - 02/09/2021: 301 E 29th St; 2509 N Calvert St
 - 02/10/2021: Alley behind 456 Ilchester; 2701 N Charles St

CITY OF BALTIMORE

DEPARTMENT OF PUBLIC WORKS

Matthew W. Garbark, Acting Director
Abel Wolman Municipal Building, 6th Floor
200 N. Holliday Street
Baltimore, Maryland 21202

- 02/11/2021: 1719 Barclay St.
- 02/12/2021: 1719 Barclay St.
- 02/16/2021: Ellsworth and N Gay Street
- **Manhole Rehabilitation**
 - Heavy machinery will be used (construction noise is expected) Sewer flow will be diverted and managed with bypass pumps (some operational noise is expected)
 - Lane closures /lane adjustments is expected
 - Completed/Ongoing Locations:
 - 02/03/2021: N Charles St and 20th St; 2615 Barclay St; 31 Lovegrove- St Paul St
 - 02/04/2021: Hunter Street
 - 02/11/2021: 124 Trenton St
 - 02/16/2021: 101 East 23rd St
 - 02/17/2021: 32 Charles St
 - 02/19/2021: 2020 N Calvert St
- **Siphon - Tunnel and Confluence Structures, Grinder pumps at BSM and MICA, Pedestrian Trail Relocation**
 - Adjacent to 2101 Falls Rd
 - Grinder Pump Installations on Falls Rd - Baltimore Streetcar Museum (BSM) is complete. Maryland Institute College of Art (MICA) is pending.
 - Starting Falls Rd Bypass demobilization
 - Jones Falls Pedestrian Trail has been detoured around construction work area, see below.

- **CIPP Lining of certain sections of the pressure sewer on Broadway + Open Cut replacement along Ellsworth**
Heavy machinery will be used (construction noise is expected)

Upcoming Work

- **Falls Road Closure**
 - Closed as of 5/11/20
 - Pedestrian Trail diverted to go around construction zone
 - The Jones Falls Trail will still be open and accessible to the public. All are requested to exercise caution in areas of construction activity.
- **Pre- CCTV for Cured In Placed Pipe (CIPP) Lining**
 - Heavy machinery will be used (construction noise is expected)
 - Lane closures /lane adjustments are expected
 - Upcoming Locations: TBD
- **CIPP Lining, Sewer Rehabilitation**
 - Heavy machinery will be used (construction noise is expected)
 - Lane closures /lane adjustments are expected
 - During curing process odor may be emitted

- Upcoming Locations: TBD
- **Manhole Rehabilitation**
 - Heavy machinery will be used (construction noise is expected)
 - Sewer flow will be diverted and managed with bypass pumps (some operational noise is expected)
 - Lane closures /lane adjustments is expected
 - Upcoming Locations: TBD
- **Test Pit Excavation for Pressure Sewer Along Broadway**
 - Heavy machinery will be used (construction noise is expected)
 - Lane closures /lane adjustments is expected
- **Broadway Bypass Pumping**
 - Heavy machinery will be used (construction noise is expected)
 - Lane closures /lane adjustments is expected
 - Tree Removal along portion of bypass route
 - Bypass piping anticipated to run at grade along N Broadway center median and below grade at Intersections from E. Oliver St to E. Chase St. Some detours are expected. There could be some impact to parking along Broadway (NB).

Below are some pictures to highlight work accomplished to-date.
